This is a sample to show how easy it is to prepare an estimate using TheMANAGER™ PDF forms. Firefox and Safari browsers allow you to input data into this form within the browser application but some versions of Explorer do not, so when this file appears in your browser, click Save As under the File menu. You can save it to your desktop or documents folder and then open it (double click the Test_Page.pdf). Once it is open, click your cursor on Your Company Name. You can delete the name there and add your company name and address. Use the "tab" key to move the cursor to the next field. Be sure to type in some numbers under the Amount heading and see how the total is automatically generated. Once it is complete, send it to print. It is that easy!

If you can't type on this form it may mean you may have an older version of Adobe Reader®. Our forms work best using Reader® version 8 or 9. On our website you can click on the Get Adobe Reader® icon to download the latest version for your computer or go directly to the Adobe website at www.adobe.com.
